

THE PROBLEM

Hospitals and physicians cannot realize the business and margin recovery they need until people overcome their concerns about returning for care

THE FACTS

39% of people say what matters most to them in returning for care is the actions providers take to create safe onsite experiences that limit exposure to COVID-19

39% figure. BVK Health Care Pulse Wave 1 April 22 - 26, 2020 (n=500)

THE SOLVE

Invest in four innovations to win back business

Visibly clean sites; protected space for “well-patient” visits; virtual care and social distance protections onsite
